

# I am ABMP.

Roberta, Colorado.  
Member since 1999.

**BACKGROUND:** My life encircled theater and education, but training in Healing Touch, neuromuscular therapy, Muscle Release Technique, and Ashiatsu revealed my true soul. I began by working with a chiropractor and a physical therapist, developing contacts that led to my thriving private practice.

**PERSPECTIVE:** I listen carefully with my ears, eyes, hands, and heart, striving to create a healing session that's physical, emotional, and spiritual. To guide others to heal themselves is truly rewarding.

**BUSINESS GROWTH:** My client return base is excellent. I offer discounted packages that can also be used by family members and office staff. It's incentive for them to continue the therapy year after year.

**ABMP AND ME:** ABMP's rate for liability insurance, along with their publications and all the other services, is the bargain of the century. I also appreciate how hard the association works for legislation and positive media coverage.

**LAST WORD:** With broader communication about our profession and higher standards for training, we'll gain our rightful place in the world of healing.

Comprehensive liability insurance and practice support for massage and bodywork professionals and students.
